I hereby authorize the providers to treat my case as they deem appropriate through the use of physical therapy, rehabilitation, manual therapy, chiropractic manipulation of the spine, nutritional support, trigger point injections and diagnostic testing. I realize the goal of holistic healthcare is to strengthen the patient's body in order to heal themselves.

A patient coming to the doctor gives him/ her permission and authority to care for them in accordance with appropriate test, diagnosis, and analysis. The clinical procedures performed are usually beneficial and seldom cause any problem. In rare cases underlying physical defects, deformities or pathologies, may render the patient susceptible for injury. The doctor, of course, will not provide specific healthcare, if he/ she is aware that such care may be contraindicated. It is the responsibility of the patient to make it known or to learn through health care procedures from whatever he/ she is suffering from: latent pathological defects, illnesses, or deformities, which would otherwise not come to the attention of the physician.

It is understood and agreed the amount paid the clinic for x-rays is for interpretation and only the x-ray negatives will remain the property of this office, being on file. The patient also agrees that he/she is responsible for all bills incurred at this office.

I agree to settle any claim or dispute I may have against or with any of these persons or entities, whether related to the prescribed care or otherwise, will be resolved by binding arbitration under the current malpractice terms which can be obtained by written request.

OPEN ADJUSTING DISCLOSURE

We are requesting this authorization of you due to various interpretations under federal law with respect to what is known as an incidental disclosure of health information.

It is the practice of this office to provide chiropractic care in an open adjusting environment. Open adjusting involves several patients being seen in the same adjusting room at the same time. Patients are within sight of one another and some ongoing routine details of care are discussed within earshot of other patients and staff. This environment is used for ongoing care and is NOT the environment used for taking patient histories, performing examinations or presenting reports of findings. These procedures are completed in a private, confidential setting.

The use of this format is intended to make your experience with our office more efficient and productive as well as to enhance your access to quality health care and health information. If you choose not to be adjusted in an open-adjusting environment other arrangements will be made for you. Your decision will have no adverse effect on your care from the doctors or on your relationship with our staff.

Your signature indicates your authorization of this activity.
